

NASSER GAMAL MOHAMED IDRIS

AI & Machine Learning Student | Digital Marketing Specialist

+20 109 329 2350 | nassergamal.e1@gmail.com | Egypt | github.com/nassergamale1-sketch | linkedin.com/in/nasser-gamal

PROFESSIONAL SUMMARY

BSc Artificial Intelligence student at Arab Open University with hands-on experience in Python, machine learning fundamentals, and applied AI development — further strengthened through the “Introduction to Artificial Intelligence with Python” program at The American University in Cairo (AUC). Independently designed and built Mwasalaty, an AI-powered smart transportation platform that won 3rd Place at the TechFront Hackathon 2025–2026 and is now the subject of a filed patent application (“Mwasalaty Express”) with the Academy of Scientific Research and Technology, alongside a self-built real-time object detection system using Python, OpenCV, and YOLO. Recognized by the Ministry of Youth and Sports and Misr El Kheir Foundation for excellence in programming and AI skills. Complements this technical foundation with 3+ years of freelance experience in digital marketing and social media growth, plus emerging exposure to banking and financial markets — bringing strong communication, data-driven thinking, and the ability to take an idea from concept to execution.

EDUCATION

BSc - Artificial Intelligence | Arab Open University, Egypt

Expected 2026

- Focused on data-driven problem solving, machine learning fundamentals, and AI applications.
- Applying AI knowledge directly to independent project work, including the Mwasalaty transportation platform, and to digital marketing analytics.

AI PROJECTS

Mwasalaty (موصلاتتي) — AI-Powered Smart Transportation Platform

Founder & Sole Developer

- Independently designed, developed, and presented an AI-powered platform to make public transportation in Egypt easier, smarter, and more accessible.
- Awarded **3rd Place** at the TechFront Hackathon 2025–2026, Arab Open University – Egypt, competing against teams with the project built solo.
- Advanced the concept into a formal research initiative, “Mwasalaty Express,” applying AI-driven models and data-driven solutions to Egypt’s transportation challenges.
- Filed a **patent application** for Mwasalaty Express with the Academy of Scientific Research and Technology, reflecting months of research and development.
- Continuing active development of Mwasalaty toward a market-ready product with real-world impact.

Real-Time Object Detection System

Personal AI / Computer Vision Project

- Built a real-time object detection system using Python, OpenCV, and YOLO to identify and track objects from live video input.
- Applied practical computer vision and model-integration skills, further strengthening hands-on AI development experience.

AWARDS & RECOGNITION

- 3rd Place** — TechFront Hackathon 2025–2026, Arab Open University – Egypt (project: Mwasalaty)
- Best Presenter Award** — Banker's Lounge Academy
- Recognized by the Ministry of Youth and Sports and Misr El Kheir Foundation for excellence in programming and AI skills.

CERTIFICATIONS & TRAINING

Certification / Course	Issuing Organization	Year
Introduction to Artificial Intelligence with Python	The American University in Cairo (AUC)	2026
One Million Prompters Initiative — Prompt Engineering	Dubai Centre for Artificial Intelligence	2026
Summer Training Program	Banker's Lounge Academy	2026
EGX Simulation Day — Certificate of Attendance	Egyptian Stock Exchange (EGX)	2026
Financial Inclusion & Banking Products Awareness Training	NilePreneurs, with Agricultural Bank of Egypt	2026

Certification / Course	Issuing Organization	Year
Educational Visit — Certificate of Appreciation	Egypt Post Museum	2026
Code Camp Training Program	Ministry of Youth & Sports / Misr El Kheir Foundation	2026
Social Media Certification	HubSpot Academy	2022
Digital Marketing – Paid Digital Campaigns	Edraak	2022
Digital Marketing	For9a Platform	2022
Full-Stack / Web Development	Fellstak	Ongoing
C++ Programming	Online Course	Ongoing
AI, Data Science & Machine Learning	Multiple Online Platforms	Ongoing

Note — Code Camp Training Program (April 20–23, 2026 • 20 hours): Gained a strong foundation in Python using VS Code, built interactive web applications, explored AI prompting techniques, worked with GitHub, and deployed applications on Google Cloud.

KEY SKILLS

AI & Technical

- Python programming (VS Code, Google Cloud deployment)
- Machine learning fundamentals and AI application development
- Computer vision — real-time object detection with Python, OpenCV, and YOLO
- Prompt Engineering — certified via the One Million Prompters Initiative, Dubai Centre for Artificial Intelligence
- AI prompting techniques and practical AI tool usage
- C++ programming fundamentals
- Website design and front-end development
- GitHub version control and collaborative development
- Data analysis to evaluate performance and outcomes

Banking & Financial Markets

- Foundational knowledge of stock exchange operations and trading simulation (EGX)
- Financial inclusion principles and banking product awareness
- Presentation and public speaking, recognized with a Best Presenter Award

Marketing & Social Media

- Social media strategy and account growth for influencers, celebrities, and brands
- Paid advertising campaigns and performance monitoring (Meta Ads, TikTok Ads)
- Search Engine Optimization (SEO) — on-page and basic off-page

Professional Strengths

- Independently taking projects from concept to award-winning execution
- Clear communication and the ability to translate technical ideas for non-technical audiences
- Continuous learner — actively pursuing certifications across AI, banking, and digital marketing

ADDITIONAL EXPERIENCE

Social Media & Digital Marketing Specialist | Freelance — Egypt 2022 – Present

- Managed and grew social media accounts for celebrities, influencers, and brands, running paid campaigns and SEO to improve engagement and visibility.
- Designed and developed websites to support clients' marketing and branding goals — applying the same technical skill set used in AI project work.

Media Appearances

- Featured guest on Al Hadath Al Youm TV Channel and the “Online with Radwa Muneer” show, speaking on digital marketing and personal branding.

LANGUAGES

Arabic: Native | **English:** A2 — Functional daily and professional communication
